**Subject:** Test Message - Graphical Format: Internet Radio Talk Show this Thurs. with the Breast Cancer Recovery Coach, Talia Miller.

### Dear Talia and Friends,

This is a brief newsletter because I have two timely announcements. The first is about Wednesday's call-in radio show, and the second about the upcoming teleclass which I offer several times a year.

I promise to share a lot more information in subsequent issues.

### Greetings!

The Wellness Roadshow presents Dr. Talia Miller: This internet radio show can be accessed at <http://www.contactradio.info/hosts/bradford.htm>

'Understanding the Power of You' – Deepening into "the Secret"

There has been a lot of talk about the movie, "The Secret" . And a lot of misconceptions. Let's get some clarity and have the opportunity to participate in a brief experience, a Virtual Reality, that will give you the vital skills for creating what you want- using all of your powers, to do it!

The topics for tomorrow's show include: How can our feelings (the senses) and thoughts create healing and manifestations of all kinds? There is a balance between "wanting what we want, allowing the Universe to show us what is helpful for us, and accepting what is given. Am I creating or am I just tuning into what is being created anyway? And how much of what is happening is "me"?"

See more details on the radio show website

Call in with your questions as you listen on line. I'd love to talk with you!

## Latest Prevention Information - April 17th 2007 - Teleclass

" Preventing Breast Cancer and Recurrence - Wisdom for Survivors and Thrivers"

This fr\*ee teleclass offered in conjunction with the Breast Cancer Support Center, is scheduled for

**Tuesday April 17th at 5:15 pm PST.**

This is a 60 minute no-cost class by phone. You are invited to join a community interested in preventing cancer and its recurrence. You will hear facts which are generally unavailable to the public. The focus is - what to avoid, in, on and around your body.

Participants will have the opportunity to receive information about the new early detection device, and one lucky woman will have her name drawn to receive the fantastic Plexus Pink monthly self-check device, at no cost!

" I had no idea there was so much to still learn. I thought I was already doing everything that could be done to prevent recurrence. Thank you from the bottom of my heart for finding and sharing these tips , and for being so organized while bringing your humor into the conversations." (Elaine, recent participant)

Join Breast Cancer Recovery Coach, Dr. Talia Miller by sending an email to [director@BreastCancerSupportCenter.org](mailto:director@BreastCancerSupportCenter.org) to register. Once registered, you'll receive the call-in phone number and access code for the informative and lively "class-by-phone." Space is limited to 30 callers, so please send in your reservation by Sunday, April 14th,

Invite your friends, clients and colleagues. This is FR\*EE Information brought to you as a public service by the Breast Cancer Support Center.

## New, Early Detection Device - Saves Lives!

The second urgent news I have to share today is that I just found out about an

Early Detection Saves Lives!

exciting new product called Plexus Pink. It helps women detect breast lumps during self-exams much, much more effectively at sizes that were undetectable until now. It's a revolutionary new product that I believe will save millions of lives. Really. It's like a magnifying glass for the fingers.

<http://breastchek4you.com/cancercoach/>

I am eager for you to begin to use this easy-self check device. We know that early detection saves lives. This inexpensive Breast Self-Examination Kit will help you to do a regular monthly exam more easily and more effectively than ever before possible. And medical practitioners love it!

Watch a 3 minute video by clicking on the website link.

Please forward this vital information to your loved ones.

We're really in need of other women (and men) to join with us in getting the word out. We're on a mission of eradicating breast cancer as a life threatening disease, and we need all the help we can get. So if you are moved by what you see, and many people are, then call or email for details.

In a future edition I'll include an article with data about how self-exams and early detection have been determined to be the main way of stopping breast cancer from being a serious threat.

## Accepting Your Stories

We are seeking stories or poetry from women who have overcome the challenge of cancer in a heroic way. Maybe they continued to offer love to people, even as they were dealing with death and dying issues themselves. Maybe they showed courage. Maybe they healed themselves with mind, body spirit all working together. Please share your story.
