Breast Cancer Coach Forms Phone Alternative Care Support Group

OAKHURST, CALIFORNIA, (NAMC) – Breast Cancer Coach Forms Thrivers Group – Dr. Talia Miller, the highly acclaimed breast cancer coach and director of the Breast Cancer Support Center, has finalized plans for a new approach to helping breast cancer survivors. She created a revolutionary phone coaching system for small groups of women who are dealing with issues related to breast cancer.

According to Dr. Miller, “Women using alternative, complementary and integrated treatment approaches to overcoming breast cancer, are having a hard time finding the mental, spiritual and emotional support they need. Most support groups are comprised of women using traditional breast cancer treatments. Women using alternative methods feel left out. They have unique needs requiring specific strategies for coping with breast cancer.”

As the breast cancer recovery coach, Dr. Miller is proficient in working with women by phone. She has been empowering survivors to become thrivers by phone, for more than four years – a benefit for the women who can remain in the comfort of their homes while utilizing this fast, cost effective coaching program to stop breast cancer

Dr. Miller envisioned the idea of a group of women meeting weekly by phone, to be coached and supported using From Survivor to Thriver – The Breakthrough Program for Beating Breast Cancer system which emphasizes the needs of breast cancer survivors who are using alternative healing approaches.

Dr. Miller's dream is becoming a reality. The first four week group begins on Tuesday April 5th 2005 and meets weekly from 5:30 pm – 6:30 pm PT. Although the Breast Cancer Support Center is located in Oakhurst CA, participants who enroll in the month long program may live anywhere in the US or Canada. That's part of the benefit – participants who will be supporting each other, under the direction of Director/Coach Talia Miller as she guides them to become breast cancer thrivers, don't have to travel to meet in person.

The topics for the first month include: Thrivers' Attitude – using the mind to co-create the life of their dreams; Feelings as Transformers – empowerment for healing; Thrivers' Lifestyle; and Frictionless

Communication Techniques for getting needs met gently. Women using alternative breast cancer treatment plans, complementary treatments or integrative breast cancer treatments, are invited to apply to be a participant in the group. There is a nominal fee for the month's program.

Although the Breast Cancer Support Center is the first of its kind to offer phone group coaching for beating breast cancer, the group coaching concept has been shown to have powerful effects when used in a business setting. Dr. Miller anticipates that the 6 women who are selected to participate will experience epiphanies and breakthroughs which will positively affect their bodies, minds and spirits, helping these women to heal faster and more completely than would otherwise be possible.

For further information contact Dr. Miller at the Center at 559-683-7004
